

Michal Vesely

About me

My name is Michal Vesely and I am originally from the Czech Republic. I am passionate and interested in working as a web developer. I do enjoy working with computers especially HTML|CSS in Visual Studio Code and keep improving up my coding skills. I have motivation to learn new things and make use of my experience. I am fluent in English, so I have no problem communicating with anyone. In my free time I like to play the guitar, hanging out with friends and spending time with my family.
